

Vamshi Krishna Reddy Bandaru

Enterprise AI/ML & Salesforce Architect | CTO / Chief Architect Advisor, Pente.ai | Former IBM Associate Partner
Dallas-Fort Worth, TX | 469-274-6315 | vamshireddi@gmail.com | [linkedin.com/in/vamshireddi](https://www.linkedin.com/in/vamshireddi) | vamshireddi.com

PROFESSIONAL SUMMARY

Enterprise AI/ML and Salesforce Architect with 17+ years designing, building, and operating production systems at enterprise scale — Salesforce platforms serving 40,000+ users at PepsiCo and 5,000+ agents at GM, and AI platforms running multi-LLM inference and vector search on global edge infrastructure. Salesforce Certified Systems Architect and Application Architect; former IBM Associate Partner and Executive Architect, the technical authority behind \$70M+ in signings, leading teams of 120+ across the US, Europe, and APAC. Currently CTO / Chief Architect Advisor at Pente.ai (agentic and voice AI with human-in-the-loop oversight across Salesforce, AWS, Azure, and GCP) and Founder of God's Reality Ministries (BibleReal.com and RealApologist.com, built end to end on Cloudflare Workers/Vectorize with Claude, Gemini, and Whisper). UT Austin McCombs Post Graduate Program in AI & ML, 2026, with nine applied projects. Pragmatic about AI — deterministic versus LLM-based approaches chosen case by case, designed for cost, latency, observability, and safety from day one.

CORE COMPETENCIES

AI/ML Architecture: Agentic AI Systems (planning, tool use, memory, ReAct), Voice AI Agents (Vapi, ElevenLabs, real-time STT/TTS), Human-in-the-Loop Design, LLM Orchestration (Claude, Gemini, OpenAI), RAG & Vector Search (Cloudflare Vectorize, embeddings), Prompt & Evaluation Engineering, AI Observability (monitoring, bias detection, safety filtering), Model Deployment & MLOps, Salesforce Agentforce / Einstein, Cost-Latency-Quality Trade-off Design, Responsible AI Governance (ADRs, adversarial review)

Salesforce Architecture: Systems & Application Architecture, Multi-Cloud Solution Design, Data Modeling & Large Data Volumes, Sharing & Security Model Design, Integration Architecture (MuleSoft, REST/SOAP, Platform Events, CDC), Identity & SSO (SAML/OAuth/OIDC), DevOps & Release Management (Copado, SFDX, CI/CD), Governance & Technical Design Authority, Build-vs-Buy Evaluation, Performance & Scalability

Platform & Development: Sales Cloud, Service Cloud, Field Service, Experience Cloud, CPQ, OmniStudio, Automotive Cloud, Data Cloud, Agentforce/Einstein, Commerce Cloud, Copado; Apex, LWC, Aura, Visualforce, SOQL/SOSL, Flow, JavaScript/TypeScript, Java, Python, SQL, React Native, Node.js

ML / Data & Cloud: Supervised & Unsupervised ML, Ensemble Methods (XGBoost, Random Forest, Stacking), Neural Networks (TensorFlow/Keras), NLP & Transformers, Computer Vision (CNNs), LangChain, SHAP Explainability, Python (NumPy, Pandas, scikit-learn), Cloudflare Workers/R2/D1/Vectorize, AWS, Azure, GCP, ONNX Runtime, Data Cloud

Leadership: Enterprise Architecture Leadership, Pre-Sales & Solution Shaping, Executive Stakeholder Management, Product Roadmap Ownership, SAFe Agile, Global/Offshore Team Leadership (120+), P&L Ownership (\$25M+), Change Management & Adoption

Certifications (30+ Salesforce, 40+ total): Salesforce Certified Systems Architect · Application Architect · Data Architecture & Management Designer · Sharing & Visibility Designer · Integration Architecture Designer · Identity & Access Management Designer · Development Lifecycle & Deployment Designer · Platform Developer I & II · Platform App Builder · Advanced Administrator · Agentforce Specialist · AI Specialist · Sales Cloud, Service Cloud, Field Service, Experience Cloud, Data Cloud, OmniStudio, CPQ Consultant/Specialist; AWS Solutions Architect Associate · AWS Cloud Practitioner · SAFe POPM, Scrum Master, Agilist · Scrum Alliance CSPO · Copado Administrator · IBM Generative AI Sales · IBM Enterprise Design Thinking · ServiceNow Administrator

Eligibility: Authorized to work in the U.S. with no restrictions

PROFESSIONAL EXPERIENCE

Pente.ai, Inc. · Dallas, TX

Jan 2026 – Present

CTO / Chief Architect Advisor (Salesforce, Agentic AI, Voice AI, Multi-Cloud)

- Lead technology strategy and enterprise architecture for an agentic-AI company serving SMBs in healthcare, construction, and retail — spanning AI strategy consulting, full-stack agentic AI solutions with human-in-the-loop oversight, and AI observability (real-time monitoring, bias detection, safety filtering).
- Own the technical and functional product roadmap across Pente.ai's product lines; established the architecture frameworks, ADR governance, and design/code-review standards that direct offshore engineering teams in India and keep delivery aligned to the roadmap.
- Architect Salesforce enterprise solutions — data and security models, Einstein/Agentforce capabilities, and integrations — alongside cloud AI/ML services across AWS, Azure, and Google Cloud, defining how data, models, APIs, and applications fit together into reliable, scalable systems.
- Architected and delivered Voice AI modules — real-time conversational voice agents built on Vapi and ElevenLabs (speech-to-text, LLM reasoning, low-latency text-to-speech) with human-in-the-loop escalation — integrated into Pente.ai's agentic product lines.

- Designed the platform authorization architecture, mapping Salesforce sharing/security patterns to AWS IAM models for multi-tenant AI services, and authored the Salesforce-vs-AWS security framework used for client solution design.

BibleReal.com & RealApologist.com — God's Reality Ministries (501(c)(3)) · Dallas, TX 2025 – Present

Founder & AI Product Builder (React Native, Cloudflare Workers/R2/D1/Vectorize, LLM Orchestration, Whisper AI)

- Started BibleReal.com and RealApologist.com in 2025 and established God's Reality Ministries as a 501(c)(3) nonprofit in 2026 (Candid Silver Seal of Transparency) to make Scripture and apologetics freely available in every language — ad-free, no paywall, no data monetization.
- Architected BibleReal.com, a free, offline-first Scripture platform delivering 3,000+ Bible versions across 2,000+ languages with global coverage — in active use in 100+ countries — with cross-reference (Revelation Engine), Hebrew/Greek word-study, and commentary layers, and an encrypted Safety Mode for users in restricted regions.
- Built RealApologist.com, an AI-powered apologetics engine answering questions on faith, skepticism, and archaeology in 24 languages.
- Engineered the stack on Cloudflare Workers, R2, D1, and Vectorize (3.7M vectors) for edge semantic search and inference; orchestrated multi-LLM workflows (Claude for synthesis, Gemini for generation, OpenAI Whisper audio alignment at 327x real-time on ONNX Runtime) governed by formal ADRs and adversarial AI code review.

UT Austin McCombs School of Business × Great Learning · Austin, TX (Online) Dec 2025 – Sep 2026

Post Graduate Program in AI & Machine Learning: Business Applications — 7 core modules, 5 self-paced modules, 9 applied projects

- Completed a 9-month, faculty-led program (UT Austin McCombs) spanning Python data analysis, machine learning, deep learning, NLP/Generative AI, AI agents, and model deployment — graded A+ in six of seven core modules — while applying the techniques directly at Pente.ai and God's Reality Ministries.
- **Applied ML projects:** exploratory data analysis and business-insight reporting in Python (NumPy, Pandas, visualization); supervised models (linear regression, decision trees) and customer segmentation with K-means / hierarchical / DBSCAN clustering; ensemble modeling (Random Forest, AdaBoost, Gradient Boosting, XGBoost, stacking) with cross-validation, SMOTE for class imbalance, GridSearch/Bayesian hyperparameter tuning, and SHAP explainability.
- **Deep learning & NLP projects:** neural-network classifiers with optimization and regularization (TensorFlow/Keras); computer-vision image classification with CNNs; NLP with word embeddings, transformer architectures, prompt engineering with open-source LLMs, and a Retrieval-Augmented Generation (RAG) pipeline.
- **AI agents & deployment:** built tool-using LLM agents with LangChain (planning, memory, ReAct reasoning, human-in-the-loop evaluation); packaged and deployed trained models as production APIs with MLOps practices (serialization, pipelines, monitoring).

IBM · Dallas, TX

Sep 2012 – Dec 2025

Associate Partner | Executive Architect - Director | Salesforce Practice & Growth Leader

- Progressed from Senior Salesforce Consultant/Architect to Executive Architect and Associate Partner; served as technical design authority behind \$70M+ in Salesforce signings (\$52M+ influenced 2017–2021, \$19M+ directly won 2022–2025).
- Owned end-to-end solution architecture for multi-cloud Salesforce programs — data models, sharing/security, integration patterns, DevOps pipelines, and release governance — across Fortune 500 accounts, with P&L accountability for \$25M+ annual portfolios and teams of 120+ across US, Europe, and APAC.
- Presented architecture, ROI, and platform-strategy recommendations to CIOs, CTOs, and VPs; advised on build-vs-buy, platform sequencing, and Agentforce/AI adoption roadmaps.

Hubbell, IBM · Dallas, TX

Jan 2025 – Dec 2025

Associate Partner | Executive Architect - Director (React Native, Salesforce Ecosystem, Field Service)

- Won and delivered a \$1M+ engagement for an offline-first React Native field-inspection application integrated with the Salesforce ecosystem for electrical unit inspections across client sites; owned solution design, scoping, staffing, and the 10-month implementation.

GM OnStar, IBM · Detroit, MI

Jan 2023 – Jan 2025

Associate Partner | Executive Architect - Director (Automotive Cloud, OmniStudio, Copado, Insideboard.ai, Sales Cloud, Service Cloud, CPQ)

- Sold and led the \$15M Automotive Cloud transformation modernizing the contact center for 5,000+ agents — architecture spanning Automotive Cloud, Service Cloud, CPQ, OmniStudio, Copado, and Insideboard AI.
- Established Copado CI/CD pipelines (\$2M+ licenses) and DevOps governance across the Salesforce estate; drove 85%+ CRM adoption with Insideboard AI enablement.
- Rolled out Service Cloud and Agentforce enterprise-wide; AI-driven workflows and automated validations improved agent throughput 15–20% and reduced errors 20–25%; launch readiness cut time-to-proficiency 35%.
- Presented the multi-year platform investment strategy to GM leadership (\$12–18M projected cost reductions) and advised on build-vs-buy and rollout sequencing.

Lumen, IBM · Dallas, TX

Jan 2022 – Jan 2023

Associate Partner | Executive Architect - Director (Net New Pursuit)

- Opened a new account by designing and delivering a custom Salesforce application within six months (\$1M), establishing the foundation for an expanded Salesforce services pipeline.

MRC, IBM · Dallas, TX

Jan 2022 – July 2022

Associate Partner | Executive Architect - Director (Experience Cloud, Seven Summits Accelerators)

- Architected an Experience Cloud customer portal using IBM/Seven Summits accelerators, packaging reusable IP with implementation services (\$300K).

PepsiCo/Frito-Lay, IBM · Plano, TX

Jan 2019 – Jan 2022

Sr. Enterprise Architect Manager - Director (Experience Cloud, Sales Cloud, Field Service, Service Cloud, Commerce Cloud)

- Led enterprise architecture for the Service Cloud, Field Service, and Experience Cloud transformation rolled out to 40,000+ frontline users with zero defects at national launch, delivering \$80M/year in documented cost savings.
- Influenced \$25M+ (2019), \$20M+ (2020), and \$20M+ (2021) in signings by translating business requirements into funded platform capabilities and securing executive buy-in.
- Directed the capability roadmap and operating model (cadence, governance, resourcing) — 85% adoption within six months, 20% productivity gain, 30% throughput increase, 40% fewer integration defects, \$10M+ annual efficiency.

SolarWinds, IBM · Austin, TX

Apr 2018 – Dec 2018

Sr. Enterprise Architect | Solution Sales Manager (Sales Cloud, Service Cloud, Experience Cloud, Desk.com)

- Owned the core Salesforce applications portfolio and long-range product strategy across three product/support domains; standardized service and sales processes into scalable platform capabilities (20% throughput increase, 25% fewer configuration errors) and contributed \$4M in signings.
- Drove adoption across 15K active users — 25% higher utilization and +7 CSAT/NPS points.

Bluewolf, an IBM Company · Dallas, TX

Sep 2012 – Apr 2018

Sr. Salesforce Consultant/Architect → Development Manager (Sales Cloud, Service Cloud, Experience Cloud, Eloqua, FinancialForce)

- Owned architecture and platform strategy for a global Lead-to-Cash Salesforce ecosystem (\$5M portfolio), guiding decisions on scalability, reliability, and integration risk.
- Led 40 engineers and architects across US, Europe, and APAC; automated core workflows across web, mobile, portals, and integrations — 20% efficiency gain and 30% adoption lift across 10,000 users.
- Ran build-vs-buy and vendor evaluations for CRM-adjacent capabilities and coached cross-functional talent (25% throughput improvement).

Appirio, a Wipro Company | SunPower Account · Dallas, TX

Oct 2010 – Sep 2012

Salesforce Developer/Administrator (Sales Cloud, Service Cloud, Experience Cloud - Partner Portal)

- Designed and built Salesforce solutions for sales, service, SLA tracking, and partner-portal workflows supporting 900+ internal and 4,500+ partner users; partnered with onshore/offshore teams on platform standardization and release governance.

EDUCATION

University of Texas at Austin, McCombs School of Business (Great Learning) — Post Graduate Program in AI & Machine Learning: Business Applications, Dec 2025 – Sep 2026

Modules: Python Foundations, Machine Learning, Advanced Machine Learning, Neural Networks, NLP with Generative AI, AI Agents for Automation, Computer Vision, Model Deployment

University of Texas at Dallas — M.S. Computer Science (Software Engineering), 2009

Anna University — B.E. Computer Science and Engineering, 2007

AWARDS & PUBLICATIONS

- IBM 2020 IDEA Award — Best Delivery Innovation in a COVID-19 World (PepsiCo), US Distribution Winner
- IBM 2021 Wall of Fame — Distribution Sector, Salesforce Practice Contributions
- Bluewolf PRIME Award — Delivery Excellence
- Publication: “Lead By Example: Bluewolf’s Transition to Salesforce Lightning” (2017)
