PROFESSIONAL SUMMARY

Salesforce practice leader with 17+ years spanning enterprise sales, solution architecture, product management, and program leadership across Fortune 500 accounts. Contributed to **\$70M+ in career signings** at IBM: \$52M+ influenced as the technical authority behind deal pursuits (2017–2021, documented in IBM Band 10 promotion), followed by **\$19M+ in direct deal wins as Associate Partner** (2022–present), including the \$15M GM OnStar Automotive Cloud transformation. 30+ Salesforce certified (Systems Architect, Application Architect, Agentforce Specialist) with 40+ total certifications. Built and led teams of 120+ across global programs with P&L ownership for portfolios exceeding \$25M. Also independently building two AI-powered platforms (BibleReal.com, RealApologist.com) using multi-LLM orchestration, Cloudflare edge computing, vector search, and React Native. Equally at home presenting a business case to a CIO, whiteboarding a solution architecture, or driving product roadmap decisions with stakeholders.

Eligibility: Authorized To Work In The U.S. With No Restrictions

WORK EXPERIENCE

IBM

Sep 2012 - Present

Associate Partner | Executive Architect - Director | Salesforce Practice & Growth Leader Dallas, TX

- Contributed to \$70M+ in career signings across IBM's Salesforce practice, progressing from the architect behind the deals to the partner closing them.
- As Associate Partner (2022–Present): Directly sold \$19M+ in new business, including the \$15M GM OnStar Automotive Cloud transformation, \$2M+ in Copado DevOps licenses, \$300K Insideboard AI at GM, \$1M+ at Hubbell, and \$300K at MRC.
- Pre-Promotion (2017–2021): Influenced \$52M+ in signings as the technical authority and solution architect behind deal pursuits across PepsiCo/Frito-Lay (\$25M+ in 2019 alone), SolarWinds (\$4M), HighMark (\$2M), and Bluewolf (\$5M portfolio).
- Led deal pursuit teams responsible for scoping, pricing, and shaping proposals. Won net new logos including Lumen (\$1M closed in 6 months) and expanded existing accounts through add-on sales (Copado, Insideboard, Seven Summits IP).

- Served as Solution Sales Manager (SSM) for SolarWinds, HighMark, and Frito-Lay, owning opportunity qualification, solution positioning, and deal closure.
- Presented ROI-driven solutions and business cases directly to C-level executives including CIOs, CTOs, and VPs of Customer Experience across Fortune 500 clients.
- Built long-standing C-suite relationships as a trusted advisor on CRM transformation, AI-enabled innovation, and Salesforce platform strategy.
- Managed annual portfolio investments exceeding \$25M with full P&L accountability, including staffing, vendor management, and margin ownership.

Hubbell, IBM

Jan 2025 - Present

Associate Partner | Executive Architect - Director (React Native, Salesforce Ecosystem, Field Service) Dallas, TX

- Won and delivered a \$1M+ net new engagement for Hubbell's field inspection platform, an offline React Native application within the Salesforce ecosystem used for electrical unit inspections across client locations.
- Managed the full lifecycle from initial pursuit through a successful 10-month implementation, handling solution design, scoping, staffing, and execution.
- Used the engagement to establish a broader Salesforce services pipeline within the Hubbell account.

GM OnStar, IBM

Jan 2023 - Jan 2025

Associate Partner | Executive Architect - Director (Automotive Cloud, OmniStudio, Copado, Insideboard.ai, Sales Cloud, Service Cloud, CPQ) Detroit, MI

- Sold and led the \$15M GM OnStar Automotive Cloud transformation, an enterprise-wide Salesforce program spanning Automotive Cloud, Service Cloud, CPQ, OmniStudio, Copado, and Insideboard AI to modernize the contact center for 5,000+ agents.
- Brought in \$2M+ in Copado DevOps licenses and \$300K in Insideboard AI adoption services as net new add-ons, enabling CI/CD automation and achieving 85%+ CRM adoption across the agent base.
- Presented platform investment strategy to GM leadership, making the case for \$12-18M in projected cost reductions and securing alignment on a multi-year roadmap.
- Led both pre-sales solution design and post-sales execution, from initial business case through production rollout of Service Cloud and Agentforce across the enterprise.
- Applied Agentforce AI automation to improve agent throughput by 15-20% and reduce errors by 20-25% through intelligent workflows and automated validations.
- Advised GM on build-vs-buy decisions, platform sequencing, and go-to-market execution for new capabilities, including rollout sequencing, enablement, and success metrics.
- Led launch readiness across training, operational handoff, and support alignment, cutting time to proficiency by 35% and stabilizing performance within 2 months of go-live.

Lumen, IBM

Jan 2022 - Jan 2023

Associate Partner | Executive Architect - Director (Net New Pursuit)

Dallas, TX

- Won a \$1M net new pursuit at Lumen by selling and delivering a custom Salesforce application within 6 months, opening a brand new account from scratch.
- Built the client relationship and laid the groundwork for an expanded Salesforce services pipeline within Lumen.

MRC, IBM

Jan 2022 - July 2022

Associate Partner | Executive Architect - Director (Experience Cloud, Seven Summits Accelerators)

- Sold IBM/Seven Summits accelerators and implementation services (\$300K) to MRC for an Experience Cloud customer portal, packaging reusable IP with consulting services to close the deal.

PepsiCo/Frito-Lay, IBM**Jan 2019 - Jan 2022***Sr. Enterprise Architect Manager - Director (Experience Cloud, Sales Cloud, Field Service, Service Cloud, Commerce Cloud)*
Plano, TX

- Influenced \$25M+ in signings (2019), \$20M+ (2020), and generated \$3M in new signings with \$20M+ influenced (2021) through solution selling and account expansion across PepsiCo's Salesforce footprint.
- Delivered \$80M/year in documented cost savings through Salesforce Service Cloud, Field Service, and Experience Cloud transformation, rolling out to 40,000+ frontline users with zero defects at national launch.
- Ran solution design and pre-sales engagement with PepsiCo stakeholders, turning business requirements into funded platform capabilities and securing executive buy-in on multi-million dollar investments.
- Directed the capability roadmap across service and field workflows, reaching 85% adoption within 6 months and delivering 20% productivity gains for 40,000+ users.
- Owned the operating strategy (cadence, governance, resourcing), increasing throughput by 30%, improving cost efficiency by \$10M+ annually, and reducing integration defects by 40%.

SolarWinds, IBM**Apr 2018 - Dec 2018***Sr. Enterprise Architect | Solution Sales Manager (Sales Cloud, Service Cloud, Experience Cloud, Desk.com)*
Austin, TX

- Contributed \$4M in signings as Solution Sales Manager while managing the core Salesforce applications portfolio for SolarWinds.
- Presented outcome-based solutions and tradeoff options to C-level executives, securing alignment on investment decisions and deployment sequencing across business units.
- Defined the long-range product strategy across three core product and support domains, balancing modernization, scalability, and user experience with reliability and compliance needs.
- Standardized service and sales processes into scalable platform capabilities, increasing throughput by 20% and reducing configuration errors by 25%.
- Drove adoption from onboarding through activation and retention, improving utilization by 25% and lifting CSAT/NPS by 7 points across 15K active users.

Bluewolf, an IBM Company**Sep 2012 - Apr 2018***Sr. Salesforce Consultant/Architect → Development Manager (Sales Cloud, Service Cloud, Experience Cloud, Eloqua, FinancialForce)*
Dallas, TX

- Managed a \$5M Salesforce applications portfolio, owning architecture, execution, and client value across lead-to-cash workflows. Supported pre-sales and solution shaping to expand the account footprint.
- Owned product and platform strategy for a global Salesforce ecosystem supporting Lead-to-Cash workflows, guiding architectural decisions to balance scalability, reliability, and business outcomes.
- Led 40 engineers and architects across the US, Europe, and APAC, setting execution standards that improved cross-team velocity by 25%.
- Automated core workflows across web, mobile, portals, and integrations, improving operational efficiency by 20% and increasing adoption by 30% across 10,000 users.
- Led build-vs-buy and vendor evaluations for CRM-adjacent capabilities, advising executives on technology investments that optimized ROI and reduced integration risk.
- Coached and developed cross-functional talent across domains, increasing team throughput by 25%.

Appirio, a Wipro Company | SunPower Account**Oct 2010 - Sep 2012***Salesforce Developer/Administrator (Sales Cloud, Service Cloud, Experience Cloud - Partner Portal)* Dallas, TX

- Led early-stage enterprise CRM initiatives for SunPower, turning sales, service, and operations needs into scalable Salesforce platform solutions supporting 900+ internal and 4,500+ partner users.

- Defined capabilities for service management, SLA tracking, and support workflows. Partnered with offshore and onshore teams on platform standardization and release governance.
- Supported pre-sales, solution shaping, and executive roadmap planning to build a foundation for long-term CRM adoption and account expansion.

BibleReal.com & RealApologist.com

2025 - Present

Founder & AI Product Builder (React Native, Cloudflare Workers/R2/D1/Vectorize, LLM Orchestration, Whisper AI)

- Building two AI-powered platforms from the ground up: BibleReal.com, a world-class scriptural knowledge platform delivering 500+ editions across 200+ languages with a proprietary Revelation Engine (1.55M cross-reference edges, 7-layer insight graph), and RealApologist.com, an AI-driven conversational knowledge engine.
- Architecting on Cloudflare Workers (edge computing), R2 (object storage), D1 (database), and Vectorize (3.7M vectors) for semantic search and AI inference at the edge, with Google Cloud for supplementary services.
- Orchestrating multi-LLM agent workflows: Claude Opus for content synthesis, Gemini for generation, OpenAI Whisper for audio alignment (327x real-time on ONNX Runtime), with a formal ADR governance process and adversarial code review protocol across AI agents.

AWARDS

IBM 2020 IDEA Award — Best Delivery Innovation in COVID-19 World (PepsiCo) — US Distribution Winner

IBM 2021 Wall of Fame — Distribution Sector — SFDC Practice Contributions

Bluewolf PRIME Award — Delivery Excellence
